

My full name is Ikromi Anishervon Khurshed. I was born in Dushanbe, Tajikistan in 21.06. 2004. I'm 18 years old. I had gone to 3 school since 2011. After this at 2016 I had gone to lyceum of TSUC and finish this school. Right now I study at Technology University of Tajikistan. I am a first-year student. My specialty is *Artificial Intelligence*. I live with my parents. My favorite subjects are mathematics, physics and information. I participated in many International and Republic mathematical Olympiad. For example: 2018 in International mathematic Olympiad Delhi (India) I had a special place, 2022 in Republic mathematic Olympiad I had second place and etc. In future I want to be a Data-Science programmer.
